

# Data Analyst

Data Analyst | Data Visualization | SQL Expert

@ amitnegionway@gmail.com

<https://github.com/AmitNegiOnway>

📍 Uttarakhand, INDIA

## OBJECTIVE

Eager to apply my data analysis skills in a dynamic environment. Skilled in Python, SQL and data visualization. Aspiring to contribute to data-driven decision-making processes and eager to develop further in data analytics.

## PROJECTS

### Hotels Jobs Analysis

self project

📅 2024 - 2024

In this project, we can begin by web scraping using Selenium since I don't have access to real data. We could select the Hosco website for web scraping and filter job types such as apprenticeships, internships, and training positions.

Once we've collected the data, we can proceed to clean the dataset. After cleaning the data, it will be ready for analysis.

Next, we can utilize visualization tools like pyplot and seaborn to analyze the data effectively.

Once we've completed the analysis, we can use Streamlit to create a website to showcase our project.

## EDUCATION

Bachelor of Science in Maths, Statictis and Computer Science

SSJ University

📅 2021 - 2024 📍 Uttarakhand, INDIA

## LANGUAGES

English

Proficient

Hindi

Native

## SKILLS

SQL

Python

Data Visualization

Web Scarping (Selenium)

Plotly

Data Cleaning

seaborn

Tableau

ETL using AWS RDS

EDA

Data Gathering

GIT and Glt Hub

Streamlit

Pandas

Numpy

Data Analysis

Report Generation

Data Management

## CERTIFICATION

Hotel Management: Distribution, Revenue and Demand Management  
- ESSEC Business School

This specialization covers the basics of hotel demand management, distribution, and revenue management

Enrolled in - Data Science Mentorship Program

CampusX Data Science Mentorship Program is a 7-month long mentorship program designed to make you an industry-ready data scientist.
